Subject: New Dundee updates are needed with our tax dollars, not to NH
Date: December 14, 2024 12:48:47 PM

Good day

If correctly understood, sadly NH may be the priority with no mentioned updates planned for ND.

South St & Main St could use **more lighting** for safety of home owners, drivers & pedestrians. There seems to be 1 lamp on 53 South, yet nothing more added on South St btwn Queen & Front over the past "31 years". An original was moved, but no new lighting set up.

We have chosen to add spot lighting & have been paying additional electrical costs, out of pocket, to light up our driveway & immediate street area for pedestrian & auto traffic safety, as well as, deterring vandalism or theft.

Enova advised they will hook up power if our Township adds more posts.

This shouldn't add a huge expense for the safety of ND tax payers. Solar may be the way to go!?

South St also requires a **road refacing (asphalt) with corrected drainage**.

There is a centre swell which draws add'l rain water & snow melt towards our driveway.

Also, a **drainage grate** was covered up around that time as well which has not been re-exposed. I can show you exactly where it is.

I've made a call to the Township a couple of weeks ago, without a return call addressing the lighting issue.

I hope the taxes from ND taxpayers will benefit our community & not that of buildings outside of our direct community.

The taxes are forever rising without seeing any add'l direct reward.

Please ensure all ND taxpayer requests & concerns are taken into consideration as we'd prefer to see direct improvements in our own neighborhoods.

Thank you
Kind regards
Christine Malleck
