As an elected body, this administration has failed the people of Wilmot. I would honestly be ashamed to present this to the people of this Township. \$50 more per month is absolutely unacceptable. With the current inflation and economic pressures happening in this country how do you even feel this is even remotely acceptable? The budget should be coming in at less than 10% and in all reality less than 5%. Cut back on infrastructure, we do not need a new fire station in New Hamburg, the Rec centre does not need upgrades and the employees/elected officials of the Township can take a wage freeze!

These capital investments will add \$48.35 per month to the average homeowner's tax bill. The increase will shore up the Township's finances and bring the municipality closer to a sustainable level of annual funding.

DO BETTER!

Darren Norley
