**Sanitary Rates and Charges Descriptions:**

Sanitary Rates and Charges are applicable if a property has service to the Township's Sanitary Collection System.

- Discharge Rates are applied based on a consumer's consumption of water as measured by the installed meter.
- Service Charges are applied based on the size of the meter measuring the water service at each property.
- Other Annual Charges are applied to a consumer only as necessary and are prorated based on the number of days within a billing period.
